

# HEALTHVELOCITY

UNCOMPROMISED QUALITY. UNPRECEDENTED EFFICIENCY.

DR.

Dear DR.:

HealthVelocity has been delivering limited dental services to Adult Medicaid Star and Star+Plus members in your area for several years. We need to expand our network to include dental providers in your area and would appreciate your consideration of becoming one of our valued providers!

We are the largest, independent ancillary-care practice association in Texas and have been serving needy Texans for over 12 years. HealthVelocity has a five-year history of paying claims in less than 10 days. We are attentive to the needs of our network providers and work diligently to furnish them effective coordination of member benefits and payments.

HealthVelocity provides limited value added dental services for adults older than age 21 who are enrolled in Medicaid STAR, STAR+PLUS and STAR+PLUS Community-Based Alternatives (CBA) programs. Our goal is to expand our network of dentists comparable to the membership growth in the Medicaid expansion areas.

**Basic covered services** (Examinations, Radiographs and Prophylaxis) are **paid by us on a fee-for-service** basis.

**Comprehensive dental services** for Adaptive Aids for CBA members (Oral Surgery, Fillings, Root Canals, and Dentures etc.) are paid at your rates minus 30% discount. These services are subject to approval in authorized treatment plans submitted by you prior to service.

**Non-covered services** are **payable by the member** as arranged between you and member.

Join our network and help ensure that STAR, STAR+PLUS and STAR+PLUS CBA members in your area have access to quality dental health services.

We will follow up with you soon, or you can visit our website at [www.healthvelocity.com](http://www.healthvelocity.com) for the information you need to join our network. We can also be reached at 1-800-365-3527.

Thank you,

Harold Odom  
CEO/President
