

# HEALTHVELOCITY

UNCOMPROMISED QUALITY. UNPRECEDENTED EFFICIENCY.

DR.

Dear DR.:

Recent changes in Medicaid have allowed HealthVelocity the opportunity to administer limited dental benefits for adults in your area. This takes effect in Texas Rural Service Areas (RSA) beginning **March 1, 2012**. As a result, we are expanding our network to include dental providers in your RSA and would appreciate your consideration of becoming one of our valued providers!

We are the largest, independent ancillary-care practice association in Texas and have been serving needy Texans for over 12 years. HealthVelocity has a five-year history of paying claims in less than 10 days. We are attentive to the needs of our network providers and work diligently to furnish them effective coordination of member benefits and payments.

HealthVelocity provides limited value added dental services for adults older than age 21 who are enrolled in Medicaid STAR. Our goal is to expand our network of dentists comparable to the membership growth in the Medicaid expansion RSA.

**Covered services** (*see enclosed fee schedule*) are **paid by us** on a **fee-for-service** basis.

**Non-covered services** are **payable by the member** as arranged between you and member.

Please join our network and help ensure that STAR members in your RSA have access to quality dental health services.

We will follow up with you soon, or you can visit our website at [www.healthvelocity.com](http://www.healthvelocity.com) for the information you need to join our network. We can also be reached at 1-800-365-3527.

Thank you,

Harold Odom  
CEO/President
